

Guided Pathway to The George Washington University School of Medicine and Health Sciences BSHS in Clinical Operations and Healthcare Management Advising Worksheet

The Clinical Operations and Healthcare Management program (COHM) focuses on developing future health care leaders through cutting edge courses in health care leadership, quality improvement, policy strategic planning, finance, operations, human resources, marketing, and health informatics. The COHM curriculum is aligned with the curriculum standards required by the National Center on Health Leadership (NCHL), the American College of Healthcare Executives (ACHE), and Quality Matters (QM).
