The Fact Book is designed to provide easy access to commonly asked questions about the College of Southern Maryland. This edition of the Fact Book contains information such as service area demographics; academic program information; and retention, graduation, and transfer information. Individuals from every area of the College provided information for the Fact Book, and we want to acknowledge and thank all the individuals and units of the College for their cooperation and assistance.

Questions and comments regarding the Fact Book are encouraged, as we want to continually improve the Fact Book. To do that, we need to hear from you. Please e-mail your comments and suggestions to PIR@csm.edu or call the Planning, Institutional Effectiveness, and Research Department at 301-934-7621.

A Message from the President

This edition of the College of Southern Maryland *Fact Book* marks a milestone, as it is the **twenty-eighth** edition of *this critically important resource*. This publication contains a wealth of valuable and interesting information about the college.

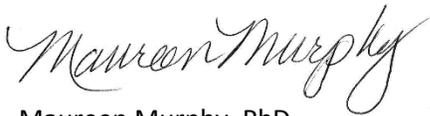

Data are more important than ever before, as so many of our decisions are data-driven. Data are shared and discussed through our committees, including our Strategic Enrollment Management Committee (SEMC) and our Quality Improvement Process (QIP). The latter includes strategic planning and outcome assessments at all levels of the organization.

The **2016 - 2017** *Fact Book* provides easy access to commonly asked questions about the College of Southern Maryland regarding retention, transfer, and graduation rates; academic programs; and tri-county demographics.

We use the data to help craft our strategies regarding new/enhanced directions, and to ensure we are using our resources wisely. The data are especially meaningful now, as we are preparing for our next strategic plan.

I welcome your comments and suggestions about this report. We strive to ensure that all of us have a better understanding of CSM and the community it serves.

Sincerely,

A handwritten signature in cursive script that reads "Maureen Murphy".

Maureen Murphy, PhD
President

2016-2017 Board of Trustees

Mission, Vision, and Values

Mission Statement

The College of Southern Maryland (CSM) is an open-admissions, comprehensive regional community college that fosters academic excellence and enhances lives in Southern Maryland. CSM meets the diverse needs of students and the community by providing accessible, accredited, affordable, and quality learning opportunities for intellectual development, career enhancement, and personal growth. The college embraces lifelong learning and service, providing a variety of personal enrichment and cultural programs in a safe and welcoming environment.

Vision

Transforming lives through lifelong learning and service.

Values / Guiding Principles

- Diversity
- Excellence
- Innovation
- Integrity
- Knowledge
- Respect
- Teamwork

College of Southern Maryland

A Historical Perspective

The College of Southern Maryland's history dates to 1958 when the Charles County Junior College, later renamed in 1961 as the Charles County Community College (CCCC), was established as part of the continuing expansion of the community college movement in America. With a governance structure provided by the Charles County Board of Education and Bruce Jenkins serving as the first dean, the college held its first classes September 17, 1958 in the evenings at the former La Plata High School. Its first commencement celebrating the success of four graduates occurred June 1, 1960. Also that year an apprentice program was established at the Naval Ordnance Station, Indian Head, and this close association with the U.S. Navy has continued throughout the history of the college.

The decade of the 1960s was one of significant growth for the college. In 1965, Dr. Julian N. Carsey became the college's first appointed president. Simultaneously the demand for a full-time day program resulted in the use of an abandoned Nike Missile Site on Bumpy Oak Road. This site served as the interim campus until September 9, 1968 when the college began classes at its permanent 173-acre campus on Mitchell Road. That year also brought national recognition to the college for having the first pollution abatement program in the country. This program later evolved into the Maryland Center for Environmental Training (MCET) at CSM. The decade closed with accreditation by the Middle States Association Commission on Higher Education and the creation of a separate Board of Trustees.

As the college moved into the 1970s, the CCCC Foundation was approved and incorporated, a Student Government Association charter was approved, and an alumni association was created. Additionally, the college had its first nursing students graduate. As the college grew, its

physical facilities also expanded. A science and technology building, providing laboratories as well as a data processing center, was completed in 1970. Also, in that year, planning began for a learning resource center, physical education building, and student services center. To serve the people of St. Mary's County, the Community College at St. Mary's County was established in 1978, located at Great Mills High School.

The 1980s brought further expansion within the tri-county as the Community College at Calvert County was established in 1980, and the college's Waldorf facility was opened in the Smallwood Village Center in 1985. In 1982, Dr. John Sine was appointed as the college's second president. Construction at La Plata continued in the early 1980s with a Fine Arts Center and establishment of MCET, and in the college's 30th year a health technology center was constructed at the campus.

The college began offering training in commercial truck driving in 1992, moving in 2000 to the college's Industrial Training Center (now the Center for Transportation Training) with a driving range on Radio Station Road in La Plata in order to expand offerings in the industrial trades. The College Store, completed in 1990, was the first in the trio of inner campus buildings at the La Plata Campus, followed by the Campus Center opening in the summer of 1994, and construction completed in the spring of 1996 on the Center for Business and Industry which included a conference center. The college entered the cyber world, launching its first web site on December 21, 1996. The Leonardtown Campus was established in its current location in 1997 with two buildings, A and B. The Learning Resource Center at La Plata was renovated and reopened in 1998. In 1998, Dr. Elaine Ryan was appointed the third president and first female to hold the position at the college.

In fall 1997, the college joined with University of Maryland University College (UMUC) at the Waldorf Center for Higher Education on Route 925 to offer linked bachelor degree programs locally. In 1999, the college partnered with Towson and Bowie State universities to offer a BS in elementary education.

On July 1, 2000, the college officially became the College of Southern Maryland (CSM), a regional college serving Calvert, Charles and St. Mary's counties. The transition to CSM changed the college's governance and financial structure. During this time and while establishing a strong campus environment, the college extended its services into the community to meet the higher education needs of a more diverse population. College programs became accessible to working adults through course offerings on-site at local businesses, on military bases abroad and at other off-campus sites, as well as through distance learning formats. Weekend courses, mini-sessions, cooperative education, self-paced courses, web courses, and web degree programs continue to provide convenient program and course delivery to accommodate the busy lifestyles of an increasingly diverse student body.

The La Plata Campus Administration Building renovations were completed in May 2002. In May 2005 the college celebrated the opening of the new Prince Frederick Campus located on Route 231 and J.W. Williams Road. The Leonardtown Campus was expanded with the addition of its third building that was completed and dedicated in November 2003. The Physical Education Center was enlarged to include additional facilities and was rededicated in October 2004. CSM was reaccredited by the Middle States Association of Colleges and Schools in 2004. The St. Charles Children's Learning Center opened on the La Plata Campus in January 2006.

CSM installed its fourth president in July 2006, Dr. Bradley Gottfried. Initiatives to connect with the community through Speaker Series, Community Forums and Twilight Performance Series were launched during 2007, and the college recognized the milestone of graduating

more than 15,000 students in its history. Also, 2007 marked the first time in its history that the college's leadership reflected the larger region that it serves, with the chair and vice chair positions of the Board of Trustees held by representatives from St. Mary's and Calvert counties. In 2008, the Board of Trustees also reflected equitable representation of three appointments serving from each county.

Renovations were completed on the science and technology building on the La Plata Campus with the building dedicated and named the Francis P. Chiamonte, MD Center for Science and Technology in October 2008 in recognition of the college's largest-ever private cash donation by Dr. Francis P. Chiamonte. During 2009, the college opened the Center for Trades and Energy Training on Irongate Drive in Waldorf, a leased 17,858-square-foot facility that is home to CSM's non-credit Career Starters trades and apprenticeship programs and advanced skills training. It includes labs for electrical, HVAC, welding and carpentry.

In 2008, the CSM Foundation launched its first major gifts campaign with a goal of raising \$5 million in recognition of the college's 50th anniversary. The Foundation surpassed its goal by achieving more than \$4.4 million in gifts and more than \$3.3 million in grants.

During 2009, community partnerships continued to expand, with the college hosting free concerts at the Prince Frederick Campus to showcase a world-class Boesendorfer piano. Additionally the college and its community partners were awarded a grant by the National Endowment of the Arts to offer the second Big Read; and the college partnered with businesses, the military and defense contractors to expand Robotics Competitions to the middle and elementary school levels, and to offer Youth in Technology and other STEM-related activities. Additionally the college launched a degree program in hospitality management, and signed an MOU partnership agreement with the University of Maryland and the Naval Air Station, Pax River establishing an engineering transfer degree program. Career Starters, non-credit, job-specific, short-term training programs to prepare

individuals for entry-level positions in high-demand industries, was launched in 2009.

During 2010, the college dedicated two facilities and broke ground for a major renovation. The Wellness and Aquatics Center at the Leonardtown Campus officially opened with fall semester 2010. The space formerly occupied by the Fitness Center was then renovated for the College Store, doubling its floor space to accommodate a growing technology market as well as promote creative ways for students to save money on textbooks through rentals, custom packages and digital offerings.

The Center for Nuclear Engineering Technology opened off-campus in 2010 in Prince Frederick, to offer the new associate degree in Nuclear Engineering Technology: Instrumentation and Control. The program is a result of partnerships with the Nuclear Energy Institute, Constellation Energy Nuclear Group, LLC, the U.S. Nuclear Regulatory Commission and other industry organizations to train area workers for high-paying career opportunities. At the La Plata Campus, parking was expanded by the Administration Building. Additionally, the newest healthcare training asset was dedicated, the Clinical Simulation Lab, a high-fidelity lab that provides a direct learning environment for students to practice procedures, skills and techniques. The college held its first All-College Convocation, calling together all faculty and staff to kick off the academic year with a keynote by Dan Buccino on “Civility on Campus.” Plans were laid to launch a Southern Maryland Non-Profit Institute. The college partnered with the National Endowment for the Humanities to bring traveling exhibits to the Leonardtown and Prince Frederick campuses, and through the college’s Connections program, US Poet Laureate Kay Ryan, and through the National Endowment of the Arts Big Read program, Ray Bradbury Biographer Sam Weller. The CSM Foundation celebrated its 40th anniversary with several events and recognized nine former board members with “All-Star Awards.”

During 2011, the College broke ground for the second building at Prince Frederick Campus and dedicated it in Fall 2013. Additionally, through the college’s new turf management program, the La Plata Campus soccer field was widened, graded and leveled; a zone irrigation system was added to conserve water; and a maintenance plan was created to keep the field in great shape for years, resulting in a professional-quality, state-of-the-art playing surface that is considered among the top soccer fields in the conference. The college launched the Digital Media Production degree program, and opened a cable studio for use by the academic program as well as for community use through a public access studio. CSM was designated a National Center of Academic Excellence in Information Assurance 2-Year Education (CAE2Y) by the National Security Agency (NSA) and the U.S. Department of Homeland Security (DHS), joining an elite group of 13 out of the more than 1,200 community colleges across the nation to receive this honor. CSM also was awarded a National Science Foundation grant to provide scholarships and support services in STEM-related programs.

In 2012, the renovated Business BU Building was opened on the La Plata Campus. New initiatives included formally establishing Diversity and Nonprofit Institutes at the La Plata Campus through funding provided by the Charles County Commissioners. CSM took the lead in addressing the student loan debt issue, including mounting a targeted marketing campaign as well as collaborating with Maryland’s 16 community colleges in an unprecedented one-day online giving event, The BIG Give, to raise awareness and more than \$64,000 for community college needs. Community partnerships continued to expand, with CSM awarded a \$1.5 million grant from the U.S. Department of Labor to provide trade skills training for juvenile ex-offenders. The Juvenile Offenders Building Skills (JOBS) project, a collaboration between CSM and more than 30 strategic partners from Calvert, Charles and St. Mary’s counties, provided a variety of skills training in HVAC (heating, ventilation and air conditioning) and plumbing to 96 young adults between the ages of 18 and 21 years old who had been involved in the juvenile justice system. Articulations were signed with Johns Hopkins University and Excelsior

College and pre-apprenticeship training with Sheet Metal Worker unions, and the college partnered with St. Mary's County public schools to present Cause Theatre performances as part of the school system's bullying prevention initiative, and worked with public schools, industry and other agencies to present a full week of STEM-related events in April.

In 2013, at the Prince Frederick Campus, the Building B was dedicated adding nearly 30,000 square feet of classroom, meeting and computer lab space as well as 3,000 square feet of space for the Center for Nuclear Energy Training and 3,000 square feet of flexible multipurpose space. CSM expanded its STEM focus to include a wider variety of events for preparing students to fulfill the high-paying technical jobs of the future. The Phi Theta Kappa chapter committed to the Community College Completion Corps (C4) national program to encourage students to complete a college credential. The Diversity Institute partnered with community organizations to launch a Choose Civility Campaign in Southern Maryland, while the Nonprofit Institute held its official launch, with funding provided for coordinators from Charles County and St. Mary's County, to help nonprofit organizations improve their effectiveness, and to serve as a clearinghouse for information and as a provider of expert services to the nonprofit community.

CSM partnered in the national program to commemorate the 50th anniversary of the Vietnam War. The college initiated classes solely for veterans, to give them an opportunity to interact with CSM's veteran support system and access various veteran faculty personalities, as well as developed innovative college prep math courses and methods to decrease the time for students to reach college-level math. The Maryland Junior College (MDJUCO) Conference awarded CSM with the Sportsmanship of the Year Award, and the college expanded its athletics offerings to include women's cross-country and men's lacrosse competing at the National Junior College Athletic Association Division I level. There were 23 new scholarships established with the CSM Foundation.

During 2014, the college received reaccreditation from the Middle States Commission on Higher Education, and CSM's Medical Laboratory Technology (MLT) associate degree program earned accreditation from the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). The college was awarded a highly competitive Title III grant to enhance student success and goal completion. CSM approved the purchase of land and conceptual design and master plan in May for the college's new Regional Campus to be located on 74 acres in Hughesville. The Community Education (CE) Building at the La Plata Campus opened in Fall 2014, and earned Silver LEED (Leadership in Energy and Environmental Design) Certification from the U.S. Green Building Council. The first green classroom building on the La Plata Campus, the CE Building includes expansive daylight in learning spaces and a high-efficiency mechanical and lighting system. Rain gardens and bio filters slow rainwater to clean and recharge the local groundwater aquifers. More than 22 percent energy efficiency and 40 percent water savings are expected.

With more than 100 associate and certificate programs, as well as continuing education courses for professional and career development, CSM continued to expand its guaranteed transfer admission programs, with more than 50 bachelor-degree institutions to provide a seamless transition. Among its most recent partnerships was CSM's dual admission agreement with the University of Maryland School of Nursing (UMSON) to bring a seamless transition from the Associate of Science in Nursing to the Bachelor of Science in Nursing (BSN) degree to Southern Maryland. CSM partnered with UMSON to design a dual admission program for current or incoming nursing students.

CSM was recognized by the National Security Agency and the Department of Homeland Security as a National Center of Academic Excellence in Information Assurance. To meet the growing need for information security professionals, CSM joined an international initiative with (ISC)²® to establish a joint framework for industry-academic cooperation to bridge the workforce gap between the increasing

demand for qualified cybersecurity professionals and the amount of skilled professionals entering the industry. Additionally CSM was designated as a 2015 Military Friendly® School by Victory Media as well as designated as a Top School in the Military Advanced Education 2015 Guide to Colleges and Universities, which measures best practices in military and veteran education. As one of the largest veteran-serving colleges or universities within Maryland, CSM serves more than 830 military students and their dependents each year. Of these students, more than 50 were active duty military members. The college worked with state, county and regional emergency planners as well as first-responders in a first Southern Region Tabletop Exercise to test and discuss how the region can provide coordinated, prompt and reliable response to an incident that would strike our region.

In Fall 2014, CSM was awarded a multi-year Department of Labor (DOL) grant through the Trade Adjustment Assistance Community College and Career Training (TAACCCT) program to improve education and career training programs for unemployed workers in partnership with local employers as part of the Maryland Montgomery College consortium in which the focus will be on the cybersecurity economic sector of information technology, professional, scientific and technical services, and educational services. CSM piloted a program with La Plata High School, Access CSM, for dually enrolled students to take courses through the high school's telepresence lab. The St. Charles Children's Learning Center earned a Maryland EXCELS Level 1 rating by the Maryland State Department of Education. The Nonprofit Institute at the College of Southern Maryland launched an online giving portal in May 2014, Southern Maryland Gives, to make it easier for the community to support nonprofit organizations' projects. The college's athletic program added Women's Lacrosse and Men's Cross Country for the 2014-15 academic year.

The U.S. Department of Education selected CSM as one of the 44 postsecondary institutions across 23 states to participate in an experiment to allow students taking college-credit courses access to

Federal Pell Grants as early as high school. Also, CSM earned reaccreditation for its business programs through the Accreditation Council for Business Schools and Programs; was designated a National Centers of Academic Excellence in Cyber Defense 2-Year Education (CAE2Y) by the National Security Agency (NSA) and the U.S. Department of Homeland Security (DHS) for the second time; earned the Alliance for Workplace Excellence's Workplace Excellence and Health & Wellness seals, and the Higher Education Excellence in Diversity Award. Celebrating its 10th year, the St. Charles Children's Learning Center at CSM earned a Maryland EXCELS Level 3 rating by the Maryland Department of Education.

The fifth largest veteran-serving college or university within Maryland, CSM served approximately 750 students utilizing the GI Bill, which accounted for over \$1.4 million in tuition and fee payments annually. For the third consecutive year, CSM earned the Military Friendly® School Designation for attracting and supporting student veterans and spouses. Working with CSM, the student Veterans Organization opened a veterans' lounge and the CSM Student Veterans of America chapter was awarded \$9,212 through the Vet Center Initiative with SVA and The Home Depot for additional refurbishing of the lounge.

With Maryland Emergency Management Agency and agencies including Charles County Sheriff's Office, Fire and EMS, CSM conducted a full-scale, active shooter exercise on its La Plata Campus to test emergency notification systems, communication and response procedures, and to identify areas for improvement.

The Charles County Mediation Center was created to provide mediation, conflict resolution services and outreach to individuals. The Nonprofit Institute expanded its support by offering Volunteer Southern Maryland, a free and comprehensive online database for connecting volunteers with local nonprofit agencies. CSM launched an Entrepreneur and Innovation Institute (EII) with the help of private funding obtained through the CSM Foundation's **Make An Impact** \$10 million campaign.

During FY17, the CSM Foundation publicly launched its \$10 million campaign to coincide with the online giving day of Giving Tuesday, receiving unprecedented support. As part of this campaign, CSM received \$1 million for scholarships and in recognition of Marianne Harms' gift named the Prince Frederick Flagship Building the "John E. Harms Academic Center."

More than 1,600 students transferred to 221 different colleges and universities in 41 states, the District of Columbia and Puerto Rico. The college continued to expand its articulations, exceeding 60 with the latest including partnerships with Seafarers Harry Lundeberg School of Seamanship, AVIAN, LLC, NSW-C-IHEODTC and NAVAIR/UMUC. The college prepared to launch its summer scholars program for high juniors and seniors and expand its Access CSM.

CSM celebrated its first class of GED students in St. Mary's and began offering basic education instruction for adults living in St. Mary's County and in Calvert County. The college celebrated high-performing students through its Talons robotics team which reached the semifinals in the world competition, its Cyberhawks, which secured first place in an inaugural statewide contest, and its men's basketball team, which achieved its first appearance at the NJCAA championship.

During FY17, the college achieved reaccreditation of its associate nursing degree and practical nursing certification, accreditation of the Children's Learning Center by Maryland's Department of Education, and certification of its testing center through the National College Testing Association. CSM introduced its non-smoking policy, to establish a smoke- tobacco- and vape-free learning and working environment.

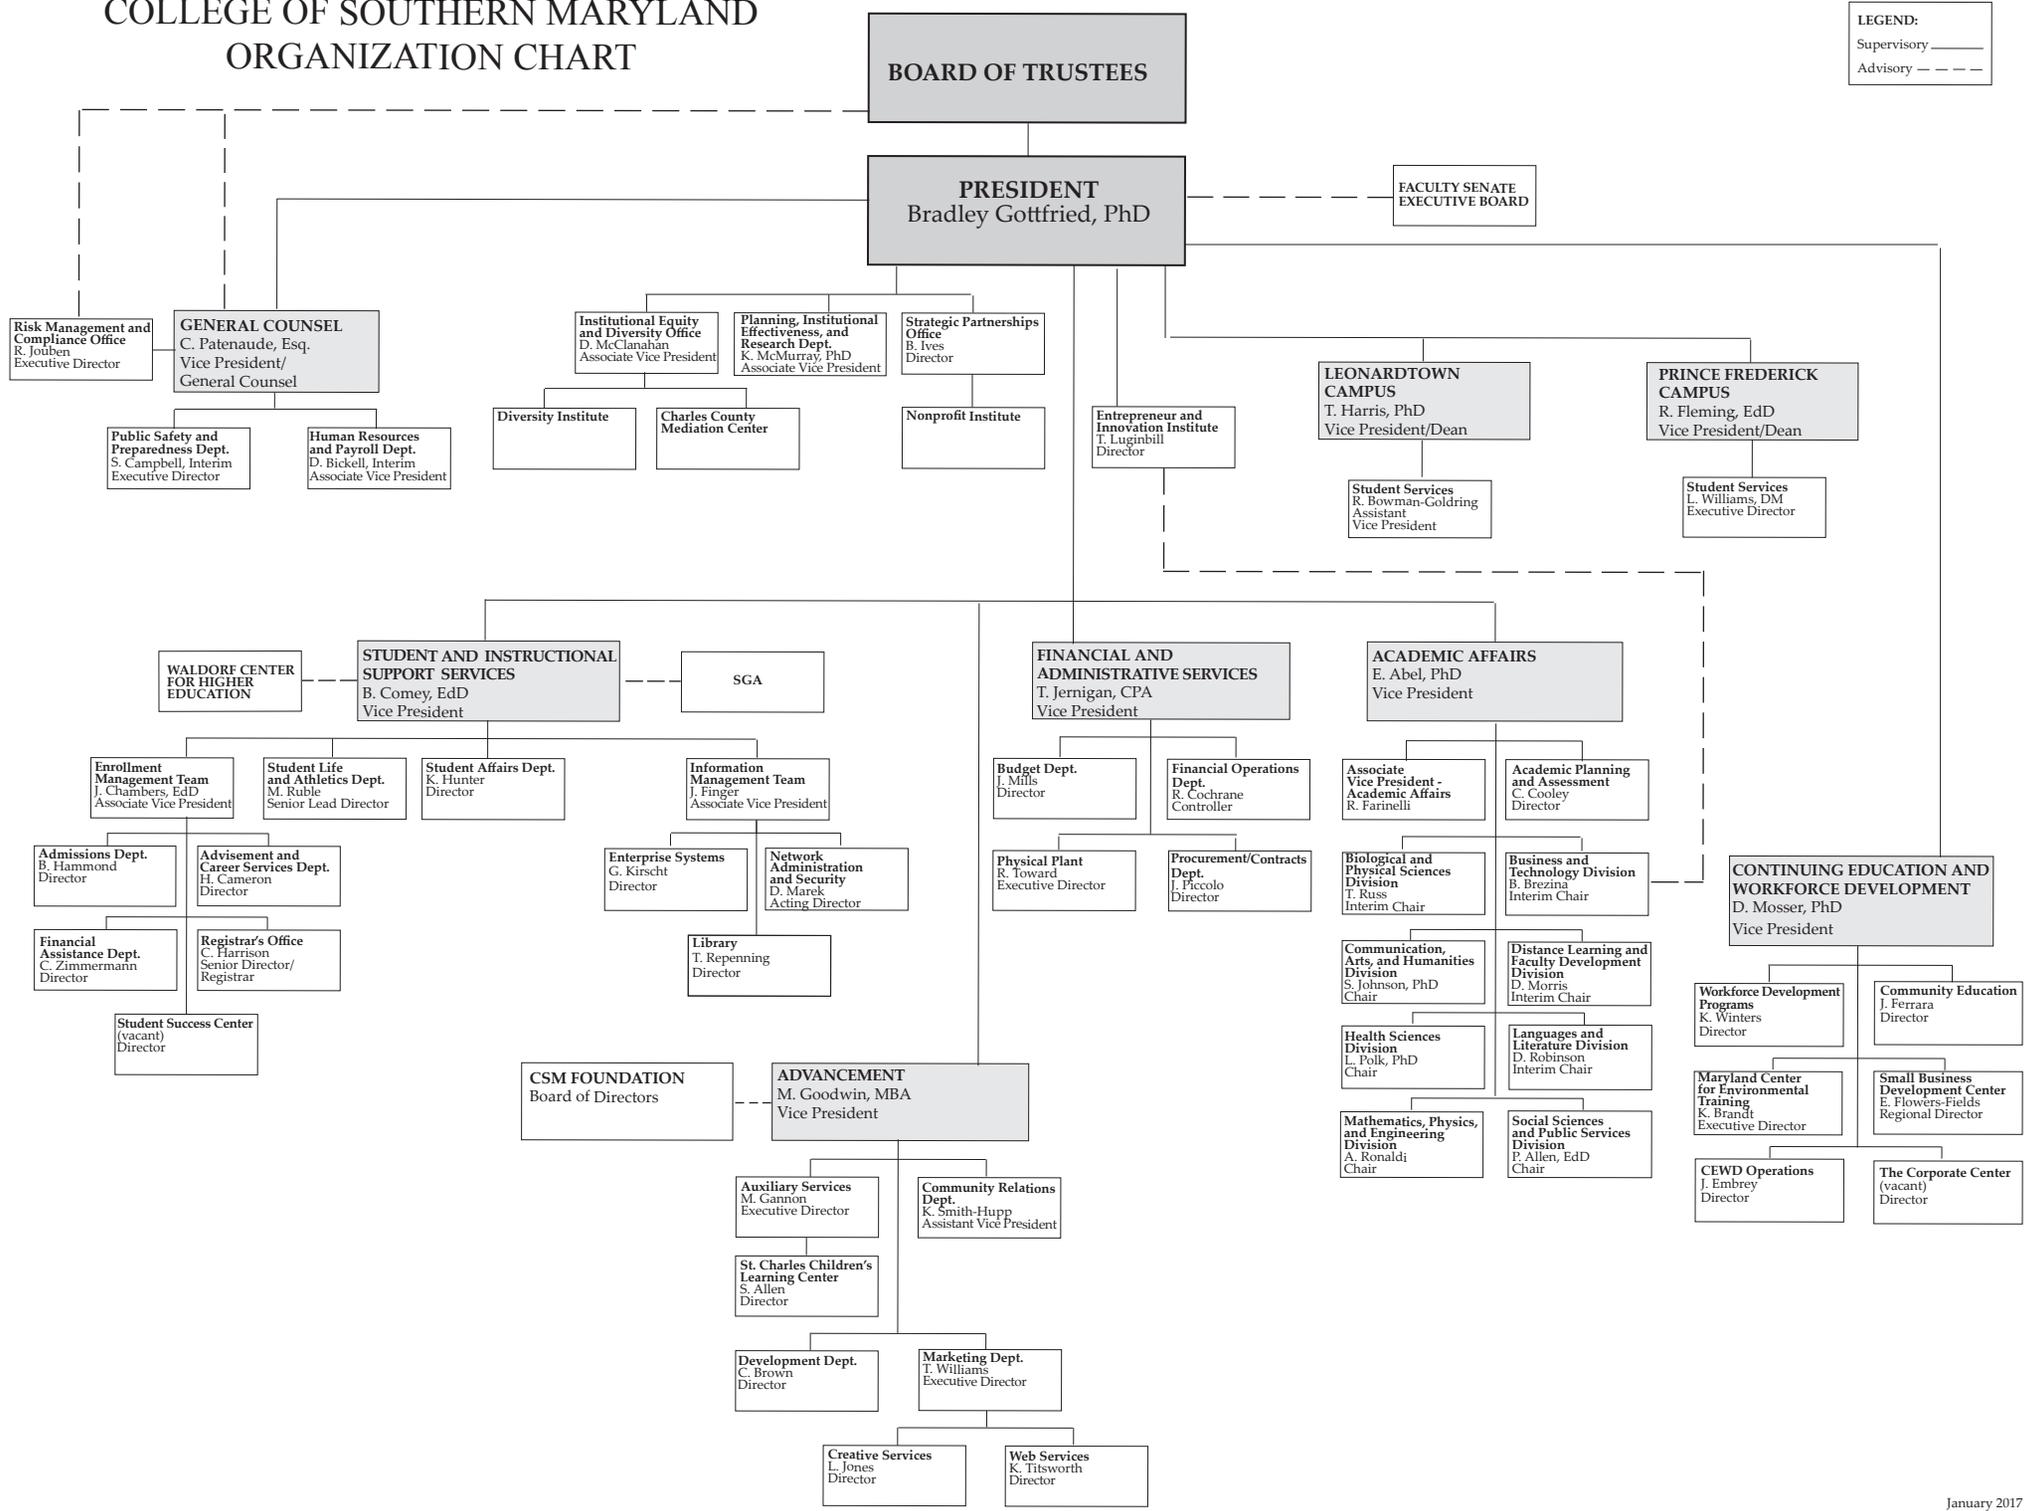

The Regional Hughesville Campus which was dedicated in October 2015 to provide specialized programs for the region in a more cost-effective and convenient way, opened its first facility, the Center for Trades and Energy Training, in spring 2017. The 30,000-square-foot building, the first completed on the new campus, incorporates several LEED features

which is anticipated to be awarded Gold Certification, and includes labs, classrooms and administrative space to provide residents throughout the region easier access to specialized training in career fields that have substantial growth potential. The CT Building houses trades training for the college – HVAC, plumbing, electrical, welding and carpentry – as well as the Maryland Center for Environmental Training (MCET), which marked its 35th anniversary during 2017. The campus master plan includes five phases, with design to begin on the next building for health sciences during FY18.

As the college prepared for the retirement of its fourth president Dr. Brad Gottfried effective June 30, 2017, the Trustees completed their presidential search with the selection of Dr. Maureen Murphy to assume the role as the college's fifth president, July 1, 2017.

Graduation Rates of First-time, Full-time Degree-/Certificate Seeking Students

| | Entering Cohort ^a | | | | |
|------------------------------------|------------------------------|------|------|------------------|------------------|
| | FA10 | FA11 | FA12 | FA13 | FA14 |
| CSM | 14% | 13% | 20% | 21% | 28% |
| National Comparison Group (median) | 17% | 18% | 20% | n/a ^b | n/a ^b |

^aThe entering cohort includes all full-time, first-time, degree/certificate-seeking undergraduate students. The graduation rate is the percent of students in the entering cohort that graduated within 150% of the normal time of their program (i.e., three years, normal time being two years).

^bComparison group graduation rates for these cohorts are not available as of the date of this publication.

Top 40 Most Frequently Attended Four-Year Transfer Institutions by CSM Students with 12 or More Cumulative Credits
Fall 2015, Spring 2016, Summer 2016 Cohort

The following table displays the top 40 four-year colleges and universities attended by students who were enrolled at CSM in the Fall 2015, Spring 2016, and/or Summer 2016 semesters; who had 12 or more cumulative credits by the end of the Summer 2016 semester; and who transferred to a four-year institution within one year. The total number of students meeting that criteria was 1,682 (22.4% of the total students enrolled in the three semesters who had 12 or more cumulative credits by the end of the Summer 2016 semester [1,682/7,501]).

| Transfer Institution | State^a | (N) | % |
